

HELP SHAPE THE FUTURE

On January 31, 2025, President Trump issued Executive Order (EO) 14192 entitled “Unleashing Prosperity Through Deregulation” which directs the Administration policy to significantly reduce the private expenditures required to comply with Federal regulations to secure America’s economic prosperity and national security and the highest possible quality of life for each citizen.

On April 11, 2025, the Centers for Medicare and Medicaid Services (CMS) released a Request for Information (RFI) seeking input on approaches and opportunities to streamline regulations and reduce administrative burdens on providers, suppliers, beneficiaries, Medicare Advantage, Part D plans, and other stakeholders who have interest in the Medicare program.

Skilled nursing providers have more than 200 regulations that direct practices and procedures. This toolkit will guide you as you answer CMS’ RFI and help shape the future of aging services policy.
