

Navigating MDS 3.0 Webinar Series

RAI Training for Nursing Facility Staff

July 10-12, 2024 • 11 a.m. – 3 p.m. CT
www.LeadingAgeIowa.org/MDSSeriesJuly

This event is scheduled in a virtual, live-streaming webinar format. To meet the regulatory and education requirements, participants must stay for the entire event to receive credit. Sign-in and sign-out times, as well as attentiveness, will be verified before credit is issued. Contact [Amy Huisman](#) for details or questions.

LeadingAge Iowa is partnering with LeadingAge Oregon to offer this opportunity. The MDS is a critical nursing facility assessment tool that can directly impact resident quality of care, reimbursement, survey outcomes, and your publicly posted quality measures. During this three-day virtual workshop, attendees will take a tour of all MDS sections, including a review of the steps for assessment of each section, common coding errors, and a review of systems and processes to better provide for MDS completion accuracy. The final day of the workshop will include the Care Area Assessment (CAA) process and its relationship to care planning, and an overview of the Patient Driven Payment Model (PDPM).

- Review the standards for completion of the MDS, including the MDS assessment schedule.
- Outline the specific sections of the MDS critical to facility performance and the provision of person-centered quality care.
- Review the Care Area Assessment Process and how it relates to the development of a care plan.
- Inspect the Patient Driven Payment Model (PDPM) and how facility reimbursement is established.
